**Enrollment for the Student Research Academy's 2022 Summer
Program is now OPEN!**

During the Summer Program, we teach high school students how to conduct their own independent research projects. Our students have had amazing success with their projects, including placing at prestigious science fair competitions and publishing in reputable journals. Here are a few recent examples:

- 2022 Regeneron Science Talent Search – Top 300 Finalist
- 2021 Regeneron International Science & Engineering Fair – 4th Place
- 2021 Texas Junior Academy of Science – 2nd Place
- 2021 MIT Research Science Institute (RSI) – accepted!
- 2020 Sigma Xi Student Research Conference Award for Engineering
- 2020 Spellman High Voltage Clean Tech Competition – Finalist
- 2021 Institute of Electrical and Electronics Engineers (IEEE) – published!
- 2021 Society of Industrial and Applied Mathematics (SIAM) – published!
- 2020 Institute of Electrical and Electronics Engineers (IEEE) – published!

During our 6-week Summer Program (Session A: Jun 11 - Jul 18 or Session B: Jul 23 - Aug 29), students will study Deep Learning Neural Networks, Data Science, Applied Mathematics, Arduino Design and Fabrication, and more. **Every student receives one-on-one tutoring through the completion of a research project.**
